Career Objective

Analytical **3rd-year B.Tech student** seeking a **Coforge** internship to apply expertise in **Python, React, and GenAI** toward scalable **digital transformation** solutions.

Education

B.Tech in Computer Science & Engineering (2023–2027)

CGPA: **7.7**

GRIET, Hyderabad

Intermediate (Class 12) — FIITJEE, Saifabad

Percentage: **83%**

Secondary School Certificate (Class 10) — St. Andrews School

Percentage: **91%**

Technical Skills

Primary Skill: Python

Secondary Skills: SQL, RDBMS, React, Supabase, Claude AI, Prompt Engineering, GenAI, Streamlit, DSA, LLM Implementation, Git, Backend Systems Engineering

Projects

Comora : Full-Stack Social Dining Platform

(React, Supabase, Tailwind CSS)

- Developed a community platform facilitating **interest-based dining events** and networking.
- Implemented **real-time data synchronization** and secure user authentication via **Supabase**.
- Architected a responsive **React front-end** to manage curated listings and user **RSVPs** effectively.

Adobe Hackathon : Intelligent Document Query System

(Python, FAISS, LLMs (Claude/GPT))

- Engineered automated clause extraction and **semantic search** using **PyMuPDF** and **FAISS**.
- Integrated **LLM reasoning** to transform unstructured documents into **structured data outputs**.
- Selected as **National Finalist (Round-2)** in Adobe India Hackathon among **4000+ teams**.

AgriConnect : Smart Crop Planner

(Python, Streamlit, MongoDB, APIs)

- Built **Decision-Support System** for crop recommendation and rainfall prediction with optimized accuracy.
- Integrated **weather APIs** to design an interactive and clean **UI dashboard** for end-users.

Professional Experience

Project Intern (Bytesedge)

Jan 2026 – March 2026

- Conducted **end-to-end testing** and process analysis for the **Nammasmarana app** development lifecycle.
- Collaborated with the engineering team to document and refine the **app building process**.
- Developed and executed a **digital marketing strategy** for **Dr. Preeti Adusmilli** to enhance brand reach.

Leadership & Achievements

Operations Lead (CSI GRIET)

- Designed **event flow for RESO'26** and managed high-pressure **on-ground operations** and logistics.
- Coordinated with CR teams to resolve **lunch-hour logistics** and handled **grievance addressal**.
- Facilitated professional **sponsor relations** and improved overall execution efficiency by **25–50%**.
- **National Finalist (Round-2)** at **Adobe India Hackathon** (Top bracket of **4,000+ national teams**).
- **Cloud Certified: Oracle Cloud AI Foundations and Amazon AWS AI Basics**.
